

### **IN THE DRAWINGS**

Corrected drawings are supplied herewith.

Enclosed is a Replacement Sheet showing the following amendment to Figure 6.

Enclosed is a copy of Figure 6 of the drawings showing the following proposed amendment to Figure 6 in red ink.

There were a number of rejections by the Examiner with respect to figure references either being present in the specification and not in the figures and vice versa. Specifically, reference numerals 124, 601, 603, 605 were identified as being in the specification but not in the figures. Also, reference numerals 123 and 315 were identified as being in the figures but not the specification.

Amendments made to the specification will correct the problems occurring with reference numerals 123, 124, and 315. The only Figure that is being amended is FIG. 6 to include the reference numerals 601, 603, and 605. The new figure is labeled Replacement Sheet and a copy of the old figure marked in red ink is supplied to show what is being changed.

Applicants believe that this corrects the objections with respect to lack of mention of reference numerals 601, 603, and 605. The remaining objections for reference numerals 123-124 and 315 are addressed below by way of amendments to the specification.
